

**Nottinghamshire County UNISON**

# **Violence in Schools**

## **Campaign 2024-25**

There has been an increase in violence in schools. We are getting calls each and every week now about this issue. From September we are making this a branch priority.

**We will be:**

- **Asking headteachers and employers to work with us to make schools safer for support staff and to sign up to our Violence at Work Charter**
- **Asking employers to adopt our model policy where there is not one in place, or asking for improvements if the current policy needs updating**
- **Holding a seminar for all school based reps on Violence at Work.**
- **Asking all our members to take Violence at Work seriously.**
- **Asking workplace contacts and stewards to put up the QR, and Violence at work posters in their schools.**
